WORK EXPERIENCE

University of Memphis Memphis, TN
Graduate Research Assistant *August 2023 – Present*

- Analyze changes in Wikipedia search behavior using difference-in-differences, comparing pre- and post-period outcomes with a control group.
- Develop regression-based driver and forecasting models, test group differences using ANOVA, and apply multivariate methods; visualize findings for faculty teams.

Global Spectra at the Mullins Center Amherst, MA
Financial Assistant *September 2022 – May 2023*

- Prepared monthly financial statements and budget estimates using Sage 100 and Excel; processed employee background checks through ADP.
- Supported box-office ticket sales and game-day operations for UMass hockey and basketball.

4am Chinese Student Basketball Club Amherst, MA
Club Head Coach and Team Captain *September 2022 – November 2022*

- Led weekly training and developed game plans for a collegiate club team, including 2-3 and 3-2 zone defenses.
- Guided the team to the playoffs.

Sport Analytics Independent Study Project Amherst, MA
Independent Researcher *April 2022 – May 2022*

- Analyzed the relationship between NBA player performance and annual salary using Python in Google Colab and 2019-2020 season data.

University of Massachusetts Amherst Amherst, MA
Student Consultant *January 2022 – May 2022*

- Developed strategies for the U.S. Soccer Federation and CONCACAF, including marketing, event host-city selection, and event planning.

Naismith Memorial Basketball Hall of Fame Springfield, MA
Development Office Intern *June 2021 – August 2021*

- Transferred, cleaned, and processed client data in Excel and updated the Raiser's Edge donor database for the Annual Giving Manager.
- Supported fundraising programs, including the Coach Circle initiative and Enshrinement Weekend.

TECHNICAL SKILLS & METHODS

- SQL, Python in Google Colab, RStudio, Tableau, advanced Excel, MS Access, Teradata SQL Assistant, ERDPlus, SAP Business Objects Analysis, and SAP BEx Query Designer; analytical methods include regression, difference-in-differences, ANOVA, and structural equation modeling (SEM).
